Preface

The information contained in the Ivy Tech Community College-Central Indiana Annual Security Report is provided to members of the campus community in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. The Ivy Tech Director of Security collects statistical crime data from internal records from campus security authorities, as well as, local police records from the following police departments; Monroe County Sheriff's Department, Bloomington Police Department, and the Indiana State Police. As required by law, the Director reports this information to the Office of Postsecondary Education on an annual basis.

About Ivy Tech Community College-Bloomington campuses

Ivy Tech community College-Bloomington is a community college which encompasses nearly 7,000 students and over 200 faculty and staff members. The main campus is located in Monroe County in which a July 1, 2009 estimate placed the population at 185,598. Ivy Tech Bloomington has five different buildings, main campus, Indiana Center for Life Sciences, Liberty Drive, Liberty Crossing, and the John Waldron Arts Center.

Despite the tragic events at other colleges around the country, Ivy Tech Community College-Bloomington, has not experienced any significant major crimes in the past. However, crime and violent events can happen at any time and any place. We always encourage our faculty, staff, and students to be aware of your surroundings and take necessary precautions.

Crime Prevention Program (Student Handbook)

Ivy Tech Community College-Bloomington is not a residential college; therefore, students are encouraged to follow the same safety precautionary measures that they follow in their home and in the community. The Office of Enrollment Services and Student Development is happy to assist anyone interested in attending a seminar or program on crime prevention and safety by locating the appropriate agency.

IVY TECH SECURITY SERVICES

There is a security guard at each campus every day after 7 A.M. The guard on duty is happy to escort any student to his/her car. The security guard can be found at the Main Lobby Reception Desk. For security issues dial "0" on a school phone during regular hours that the building is open. The main reception desk security at each campus has incident report forms that can be filled out in the event of an incident occurring on campus.

Timely Warnings

In the event that a situation arises, either on, or off campus, that, in the judgment of the Director of Facilities, constitutes an ongoing or continuing threat to the community, a campus wide “timely warning” will be issued. The warning may be issued through any means appropriate including: the Ivy Tech “Campus Connect” website, Ivy News, Text message, email and voicemail.

Crime Log

The Director of Security maintains a Crime Log that records, by the date the incident was reported, all crimes and other serious incidents that occur on campus, in a non-campus building or property, on public property, or within the department’s jurisdiction.

The Daily Crime Log is available for public inspection at the department’s main office located at 200 Daniels Way, Bloomington, IN, 47404. The Crime Log includes the nature, date, time, and general location of each crime reported to the department, as well as the disposition of the complaint, if this information is known at the time the log is created.

The department posts specific incidents in the Daily Crime Log within two business days of receiving a report of an incident and reserves the right to exclude reports from the log in certain circumstances.

Lost and Found

Security operates a lost and found service during normal business hours. Call 812-330-6249 for additional information.

CAMPUS SECURITY AUTHORITIES

The federal law known as the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act) requires “Campus Security Authorities” to report campus crime statistics to the Department of Education on an annual basis. At Ivy Tech Community College-Bloomington, the Vice Chancellor of Student Affairs gathers and compiles the statistical information from Security Authorities.

“Campus Security Authorities,” as described by the Clery Act, include security and law enforcement officers, deans, coaches, advisors to student clubs or organizations; and

other campus officials who have “significant responsibility for student and campus activities,” such as, but not limited to, student discipline and campus judicial proceedings. *Professional and pastoral counselors are exempt from the reporting requirement while working within the scope of a license or certification.*

Campus Security Authorities provide **STATISTICAL** information only to the Ivy Tech Campus Security. This process ensures that the information provided does not include any personal information. For the purposes of collecting statistical information for the Annual Security Report, the Campus Security Authorities at Ivy Tech-Bloomington include the following positions:

- Director of Security
- Vice Chancellor of Student Affairs
- Director of Student Life
- Human Resources
- Executive Director of Administration
- Vice Chancellor of Academic Affairs

SEXUAL HARASSMENT AND SEXUAL ASSAULT Harassment/Sexual Harassment/Stalking and/or Intimidation

Harassment Policy (Student Handbook)

Victims of a sexual assault should get help as soon as possible. If you are physically injured, seek medical treatment immediately. Contact campus security or the police to report the incident. It is important to preserve any evidence of the crime to assist with the investigation. You should not wash or change clothes if possible before being examined at a medical facility. The College will attempt to assist with victim requested changes in the academic situations whenever possible. If you feel you are being sexually harassed, contact the campus Affirmative Action Office (Human Resources). The Affirmative Action Office responds to every complaint, providing proper mediation when harassment is determined. Incidents involving harassment should be reported to the Executive Director of Administration located in A112.

EMERGENCY PREPAREDNESS

Emergency Response and Evacuation Policy

Ivy Tech Community College-Bloomington will initiate, without delay and taking into account the safety of the college community, the usage of the Ivy Tech Alert emergency notification system in the event of a significant emergency or dangerous situation on campus that involves an immediate threat to the health or safety of students, staff, faculty and visitors.

The notification will go out to everyone on the Ivy Tech Alert system upon confirmation of the significant emergency or dangerous situation unless issuing the a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. The content of the message will vary depending on the situation. The officials who can initiate an Ivy Tech Alert message include the Chancellor, Executive Leadership Team members, Marketing, Director of Facilities and Director of Security staff members.

Regularly scheduled drills, exercises, and appropriate follow-through activities, designed for assessment will be conducted each semester. Emergency Evacuation Plans are posted in every building/hallway on campus. General Emergency Response booklets are given to all full-time employees and faculty members.

The evacuation plan provides a floor plan of each campus location, identifying the locations of all exits, fire alarm pull stations and fire extinguishers. The evacuation plans list instructions for response to a fire and tornados.

Emergency Communications

After an emergency such as a tornado, local phone lines may have reduced capacity. Do not make calls immediately after an emergency unless it is a life safety situation – leave the lines available for emergency services. One way to keep in touch with your relatives after an emergency is to call an out-of-area phone contact. Ask the out-of-area contact to

call all of your other relatives and friends for you to tell them that you are ok. Emergency notification on campus will be in the form of emergency text message, email, public address system, word of mouth, or any combination of the mentioned actions.

Building Evacuations

Before an Evacuation:

- Familiarize yourself with evacuation procedures for the building; locate the nearest exit and fire extinguishers.
- Find the Emergency Assembly Point (EAP) for your building.

During an Evacuation:

- Evacuate when you hear the sound of an alarm in a campus building. (Drills are no exception.)
- Exit the building quickly and safely, closing the exit door behind you.
- Wear shoes.
- Never use elevators – always use the stairs.
- Help others to evacuate – knock on doors, check bathrooms as you leave the building. Help those with a physical disability evacuate the building if they need help.
- An alarm may be part of a crime in progress – be alert for suspicious persons or activity.
- If the alarm in a building has been set off by accident, call 9-911/9-1-1 immediately and explain the situation.
- Report any vandalism or tampering with the alarm immediately.

Annual Campus Fire Reporting

Ivy Tech Community College Bloomington **does not** own, operate or rent student housing on any of its campuses. However, we have included fire precaution information and statistical information in our Annual Security Report. Ivy Tech Community College-Bloomington does conduct drills each semester including FIRE, TORNADO and LOCKDOWN drills. Everyone should always alert and aware of their surroundings at all times. Drills help to keep building occupants aware of their surroundings, as well as, up to date on proper procedures.

Fire Safety Precautions

What to Do in Case of Fire;

If you discover a fire in a campus building:

Immediately pull the nearest fire alarm as you exit the building. When evacuating the building, remember to feel doors before opening them to be sure that there is no fire

danger on the other side. If you must enter a smoke-filled room or hallway, stay low, keeping one hand on the wall to avoid disorientation and crawl to the nearest exit, keeping your head near the floor. Once you are safely away from danger, call the emergency number for your campus to report the fire. If you are off campus, dial 911. Leave the building at once, but stand-by to direct emergency teams to the location of the fire.

Fire Response Dos and Don'ts

- DO treat every alarm as an emergency. If an alarm sounds, exit the building immediately. DON'T assume that a fire alarm is a drill or test. All building alarm systems are tested as required by law, but these tests are announced in advance.
- DO remain in your room if you cannot get out of the building because of heat or smoke.
- Call Security right away. Keep the door closed and await assistance from the Fire Department.
- If smoke is entering around the door, stuff the crack under the door with clothing or other material to block the smoke from entering.

Building Fire Equipment/Doorways

- Buildings are equipped with a variety of features that are designed to detect, stop and/or suppress the spread of a fire.
- A door can be the first line of defense against the spread of smoke or fire from one area to another. Some doors, such as fire doors in corridors or stairwells are designed to stand up to fire longer than those of an individual room. It is important that these doors are **CLOSED** for them to work.
- Additionally, if a door has a device that automatically closes the door, it should NOT be propped open.
- Sprinklers are 98% effective in preventing the spread of fire when operating properly. **DO NOT** obstruct the sprinkler heads with stacked boxes or other equipment or objects.
- Smoke detectors cannot do their job if they are disabled or covered by the occupant, which is a violation of University Policy.
- **Smoking is NOT PERMITTED is not permitted on Ivy Tech Community College – Bloomington property.**

It also requires sex offenders already required to register in a State to provide notice, as required under State law, of each institution of higher education in that State at which the person is employed, carries on a vocation, or is a student.
