## **SAFETY AND VIOLENCE PREVENTION NOTICE**

Ivy Tech Community College is concerned with the safety and security of its students, staff, and faculty, as well as guests and visitors on Ivy Tech campuses. In this age of increased threats in schools and the workplace, people have a heightened sense of concern for their own personal safety and safety of others. It is imperative that if you see or hear a threat that you report it immediately.

The intent of this notice is to remind persons of the College's policies regarding safety and violence and provide guidance for persons who perceive that someone has made a threat. The appropriate College administrators will deal with actions or statements (including notifying local law enforcement officials) that a reasonable person could interpret as leading to an act of possible violence. Comments such as a statement to "get even" with someone, a threat to kill or injure someone, or to "blow up the building" are examples of threatening or intimidating language. The comment does not need to be made directly to the potential victim. Persons who believe that violence is their only alternative to settling a conflict are encouraged to consult with the Executive Director of Institutional Effectiveness or the Executive Director of Human Resources for suggestions of community mental health organizations.

Ivy Tech Community College intends to provide a safe place for all students. Violent behavior, direct or indirect threats, harassment, or intimidation will not be tolerated. It is the responsibility of all students to help keep the school safe by monitoring their own behavior and reporting incidents involving other students in any form of violence or threatening behavior. Determination of physical assault, battery, or forcible sex offenses will be grounds for immediate dismissal. A student may appeal these sanctions by following the appropriate appeal process. All student actions/behaviors are also governed by local state and federal laws and regulations.

## **IVY TECH CAMPUS SECURITY**

Ivy Tech Campus Security is provided by off-duty Clark County Sherriff's Officers, providing security, law enforcement, safety, crime prevention, and emergency services at the Ivy Tech Southern Indiana Main Campus during peak business hours. ## **SEXUAL HARASSMENT AND SEXUAL ASSAULT INFORMATION**

Sexual assault is the commission of an unwanted sexual act, whether by an acquaintance or by a stranger, that occurs without indication or consent of both individuals that occurs under threat or coercion. Sexual assault can occur either forcibly and / or against a person’s will, or when a person is incapable of giving consent. A person is legally incapable of giving consent if under 18 years of age; if intoxicated by drugs and/or alcohol; is developmentally disabled; or if temporarily mentally or physically unable to do so. Anyone can be the target of sexual assault of a sexual assault, regardless of age, gender, race, ethnicity, sexual orientation, sexual history, or social class.

### **Harassment Policy**

The College will not tolerate harassment based on sex (with or without sexual conduct), race, color, religion, national origin, age, disability, and/or opposition to prohibited

discrimination or participation in this or any other complaint procedure. This prohibition covers harassment against any student at an Ivy Tech Community College campus by anyone, including other students, employees or non-employees during any College activity or program. The policy prohibiting harassment includes adverse treatment of students because they report harassment or provide information related to such complaints. Sexual Harassment and Sexual Assault Sexual harassment is simply one form of harassment covered by this policy. Sexual harassment encompasses unwelcomed sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature where:

- Submission to the conduct is an explicit or implicit term of student status (which includes academic and non-academic decisions).
- Submission or rejection of the conduct is the basis for any decision affecting that individual's student status; or such conduct has the purpose or effect of unreasonably interfering with an individual's academic performance or creates an intimidating, hostile or offensive academic environment. Sexual harassment would include, but not be limited to, actions such as: (1) sex oriented oral or written "kidding" or abuse, (2) photographs, drawings or graffiti of a sexual nature, (3) subtle pressure for sexual activity, (4) physical conduct such as patting, pinching, or constant brushing against another's body, and (5) explicit demands for sexual favors, whether or not accompanied by implied or overt promises of preferential treatment or threats concerning an individual's student status. Reporting and Complaint Procedure Students are encouraged to report harassment before it becomes severe or pervasive. A student who thinks that he or she has been a victim of harassment and who desires to file a complaint to that effect should report a complaint as follows:
  - If the complaint is regarding harassment by another student, it may be filed with or reported to the College judicial officer or an academic chairperson with the expectation that the harassing behavior will be a violation of the College's code of student conduct, either on its own terms or as a violation of another College policy.
  - If the complaint is regarding harassment by a College employee or non employee, it may be filed with or reported to the Assistant Dean of Student Services & Enrollment Management, any of the employee's supervisors, or with the Executive Director of Human Resources or anyone else in a managerial role. All supervisors and members of management to whom a complaint of harassment is brought or who independently observe behavior prohibited by the harassment policy are to report the complaint of harassment or information about harassment promptly to the highest ranking official at the respective facility who is not the alleged harasser, to the Dean of Student Services & Enrollment Management or to the Director of Human Resources. (Ref. Ivy Tech Student Handbook)

### **Stalking Definition**

"Stalk" means a knowing or an intentional course of conduct involving repeated or continuing harassment of another person that would cause a reasonable person to feel terrorized, frightened, intimidated, or threatened and that actually causes the victim to feel terrorized, frightened, intimidated, or threatened. The term does not include statutorily or constitutionally protected activity. Stalking anyone, at anytime while on campus is strictly prohibited.

### **If You Have Been Sexually Assaulted**

If you have been sexually assaulted, your first priority is your immediate safety. Don't be afraid to seek medical attention or ask for help. You have options. You are strongly encouraged to seek professional assistance and guidance.

### **Male Victims**

While most victims of sexual assault are women, some men are also victims. Male victims at Ivy Tech Community College receive the same services as women. Emotional support, counseling about options, information about resources related to legal issues and medical treatment are available to assist all those recovering from sexual assault.

### **If You Need Medical Attention**

For life threatening conditions,

- Call 911 and/or Campus Security.
- Go to the nearest hospital or clinic.

Faculty and staff should consult their primary care physicians or go to the nearest hospital emergency room.

### **Preventing and Responding to Sexual Assault**

Ivy Tech Community College - Southern Indiana treats allegations of sexual assault seriously and has a system in place to assist survivors in obtaining medical treatment, counseling, and legal assistance. The College is committed to treating survivors with care, compassion, and respect. In a campus setting, sexual assault often occurs when one or both parties are intoxicated from alcohol or other drugs or in connection with group activities where unanticipated social pressures may develop. Therefore, it is important to understand that intercourse or other sexual activity with a person unable to give free and full consent (e.g., because of intoxication, substance abuse, or intimidation) may constitute sexual assault or rape. Furthermore, the offender's use of a mind-altering substance does not in any way diminish his or her responsibility for abusive behavior.

Ivy Tech Community College - Southern Indiana recognizes that sexual assault is never the fault of the survivor and encourages all students to be aware of personal safety in order to reduce the risk of victimization. Please read the information provided herein and be aware of the effects of alcohol and other drugs and the dynamics of social gatherings.

### **Actions for Survivors of Sexual Assault**

We urge survivors of sexual assault to take the following steps:

## **GET MEDICAL TREATMENT**

### **To get immediate medical treatment, call 911.**

It is important that a person who has been recently assaulted receive prompt medical attention to ensure that he/she is medically well. Because physical injury is not always noticeable at first, it is important to receive a medical examination and treatment as soon as possible. This may include screening and/or treatment for sexually transmitted disease and emergency contraception, if appropriate.

The examination may also include the collection of physical evidence for use in prosecution, if the survivor so chooses. Such evidence may increase the chances of successful prosecution, and its collection is therefore strongly encouraged. For this reason, survivors should not bathe or change clothes before seeking medical treatment. Forensic evidence is collected by a medical provider, usually in an emergency room, up to 96 hours following a sexual assault. Ivy Tech Community College - Southern Indiana students can go to any nearby hospital emergency room. The medical exam and collection of forensic evidence are done simultaneously.

### **Report the Sexual Assault**

The safety and well-being of survivors are of paramount importance. Ivy Tech Community College strongly encourages survivors to contact trained professionals for emotional support, medical services, and advocacy with reporting and or the criminal justice system.

### **Contact options include:**

- The Police Department
- The Office of Campus Engagement
- The Office of Institutional Effectiveness
- The Rape Crisis/Anti-Violence Support Center
- A medical treatment facility
- Any trusted friend, adviser, or faculty member as soon as possible
- The College urges survivors to consider contacting the Sellersburg Police Department to report the assault. Although the College strongly encourages pressing criminal charges, it respects the survivor's choice.

### **Seek Counseling**

The Southern Indiana community offers a variety of counseling resources to survivors of sexual assault. For more information on the full range of supportive services we have provided a few numbers for reference:

Center for Women and Families, Indiana – 812-944-6743  
Center for Women and Families, Kentucky – 502-581-7222

### **File an Internal Complaint within Ivy Tech Community College**

If the individual accused of a violation of the College's Sexual Assault Policy is an Ivy Tech Community College student, a complaint may be filed with the College. Students interested in initiating the Disciplinary Procedure for Sexual Assault should contact the Vice Chancellor of Student Affairs and/or Human Resources.

Any student accused of a violation of the College's Sexual Assault Policy will receive written notice of the complaint and a copy of the complainant's written statement, if any, unless the College believes there may be an issue of public safety, in which case a student may be called to a preliminary hearing without advance written notice. The responding student will be advised that he or she is presumed not to have violated the Policy and that he or she is expected to cooperate in the investigation of the complaint. Additionally, both the person bringing the complaint and the responding student will be advised of their rights to a supporter from the College community and of the potential penalties if he or she is found in violation. If the decision of the panel is that a violation of the Policy has occurred, a detailed report of testimony and findings shall be forwarded to both students and the Vice Chancellor of Student Affairs of the person found in violation, with a recommendation for sanctions. The Vice Chancellor of Student Affairs shall then inform the student found in violation of the sanctions he or she is imposing and inform the student of his or her appeal rights in writing. An appeal must be submitted within 30 days of the proposed imposition of any penalty to the dean of the school of the student found in violation. If no violation of the Policy is found, a summary report shall be sent to both parties and notice of the decision to the Dean of Students of the respondent school (identifying information is not released when there is no violation).

### **Confidential Reporting**

If you are assaulted and do not want to pursue action within the Ivy Tech Community College system or the criminal justice system, you may still want to consider making a confidential report to the Ivy Tech Campus Security. With your permission, an Ivy Tech officer can file a report on the details of the incident without revealing your identity. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. With such information, Ivy Tech can keep an accurate record about the number of incidents involving students, employees and visitors; determine where there is a pattern of assaults with regard to a particular location, method, or assailant; and alert the campus community to potential danger.

### **Consider Changing Living and Academic Situations**

Survivors of sexual assault may seek alternative class arrangements, and the College is required to provide them if they are reasonably available. The Director of Campus Engagement will arrange these accommodations. Generally, alternative class arrangements depend on scheduling considerations and the availability of equivalent courses.

## **DRUG AND ALCOHOL POLICY**

### **Definitions**

A. Substances referred to under this policy include all illegal drugs, alcoholic beverages and misused legal drugs (both prescription and over-the-counter).

B. Illegal drugs refer to the illegal manufacture, distribution, dispensation, possession or use of controlled substances listed in the Indiana Controlled Substances Act (IC 35-48-1-1, et seq).

The purpose of the Drug-Free College Policy is to maintain a safe and productive teaching and learning environment and to be in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act of 1989.

All students are expected to attend classes, labs, and College activities unhindered by the substances defined above. The College has established a drug-free awareness program for employees and students, and employees and students are expected to work together to maintain a teaching and learning environment free of illegal drugs.

The unlawful manufacture, distribution, dispensation, possession, and use of illegal drugs present a hazard to students, employees, and property and are not permitted at any property in use by the College, at any official function sponsored by the College, and at any course conducted by the College, except by special written permission of the president of the College. Any student convicted of a criminal drug offense in or on properties controlled by the College, or while conducting College business is required to notify the Executive Director of Campus Engagement within five days of the conviction.

Any student who violates this policy is subject to disciplinary action. Such action may include, but is not limited to, dismissal from College classes, programs, and activities. The Vice Chancellor of Student Affairs is responsible for implementing the Drug-Free College Policy as it relates to students. As part of an effort to create a drug-free campus, Ivy Tech Community College believes that employees and students should be educated about the physical and emotional health risks associated with the misuse of alcohol and drugs, treatment programs available in Indiana, and the possible legal consequences of drug and alcohol use.

The College encourages employees and students who experience problems with drugs and/or alcohol to seek help before these problems interfere with their performance at Ivy Tech Community College and endangers their health and safety.

## **FIREARMS AND VERBAL THREATS**

(Student Handbook / IC 35-47-9-2) IC 10-14-3-33.5; IC 21-7-13-6(b))

According to the Student Affairs Policies and Procedures Manual “students are entitled to a learning atmosphere free from discrimination, harassment, sexual harassment, and intimidation.” Also, “possession of firearms/ammunition and other weapons, dangerous chemicals, or any explosive or explosive device is prohibited on College property or at any College sponsored activity held elsewhere.” Employees are prohibited from “reporting to work or representing the College while possessing firearms or other dangerous devices” (Personnel Policies and Procedures). In addition, “employees are prohibited from making statements or taking actions that are potentially offensive and embarrassing to other employees, students or visitors of the College”. Employees who “threaten ongoing College operations, the health and safety of others or themselves,” can be accused of gross misconduct. Violation of these policies can result in a disciplinary action up to and including dismissal from the College (if a student) or termination of employment (if an employee). **Beginning July 1, 2010, it is illegal to have a gun or ammunition on postsecondary institution property, either in a vehicle or in a person’s possession.**

### **Reporting Crime and Suspicious Activity Procedure**

Students who believe that another student, employee, or visitor has made a threatening statement or has brought a weapon to College must immediately report the incident to Campus Security Personnel and the Executive Director of Campus Engagement. Likewise, employees who become aware of a threatening situation or potential for violence must contact Campus Security Personnel and the Executive Director of Human Resources. Persons making a report will be asked to provide as much detail as possible, including names of other witnesses, the name of the person making the threat or possessing the weapon, location, and other pertinent information that would be helpful in conducting a fair and accurate investigation.

### **Investigation**

All reported incidents will be investigated. Information about the allegation will be shared only with those who need to know about it. Complete confidentiality cannot be guaranteed since conducting an effective investigation would not be possible without revealing certain information to the alleged violator and potential witnesses. The Executive Director of Campus Engagement will participate in the investigation of incidents involving students and the Executive Director of Human Resources will participate in the investigation of incidents involving employees.

### **Determination**

After all of the evidence is collected, interviews are final, and any credibility issues are resolved, a determination as to whether a violation of campus policy occurred will be made and the parties directly involved informed of the determination. If no determination can be made because the evidence is inconclusive, the parties will be informed of this result. The standard of evidence used to determine responsibility is a “preponderance”

(more likely than not) of evidence appropriate for determining that a violation has occurred.

### **Corrective Action**

After the determination is made, the College will undertake prompt and appropriate action, including discipline up to and including dismissal from the College or termination whenever it determines that a violation of these policies has occurred. The person(s) reporting the incident as well as the potential victim(s) will be informed of the outcome of the investigation and corrective action (if any).

## **REPORTING CRIME OR SUSPICIOUS ACTIVITY**

All students, faculty, staff and visitors at Ivy Tech are highly encouraged to report all crimes and security related incidents to Campus Security in a timely manner.

All reports will be investigated. Ivy Tech Community College - Southern Indiana does not have procedures for voluntary, confidential reporting of crime statistics. Violations of the law will be referred to law enforcement agencies and when appropriate, and to the College Disciplinary Committee for review. ### **Off-Campus Crime**

When off campus, members of the Ivy Tech community are encourage to report all crimes and Campus Security related incidents to the local police agency in a timely manner. In case of an emergency, call 911.

## **Obscene and Annoying Phone Calls**

- Hang up as soon as you realize the nature of the call. Do not try to find out who the caller is, even if you think it is a friend playing a joke.
- Use your answering machine to screen calls.
- If calls occur frequently, keep a log of exactly when the call was received and what both parties stated. Describe the type of voice and note any background noises.

Sellersburg Police Department. For non-criminal workplace issues, please call Human Resources: (812) 246-3301 for information and assistance.

## **DOMESTIC VIOLENCE**

Domestic violence is a pattern of abusive and coercive behaviors used to maintain power and control over a former or current intimate partner. No one deserves abuse; it is a crime if someone physically hurts, threatens, or stalks you. The criminal justice system can be intimidating and confusing, but do not be afraid to call the police if you have been abused. The goal of the police and the legal system is to provide some measure of safety for victims of violence in relationships along with accountability and counseling for their abusers. If you have just been threatened, hurt or abused, or are being stalked by your current or former intimate partner, call 9-1-1. Tell the dispatcher that you are in danger and you need help immediately. The police are required to write an incident report for all domestic violence calls, even if the batterer has already left the scene when they arrive. Although it is best to make the report as soon as possible, you may also call the police hours, days, or months after you have been abused.

## **MISSING STUDENT/EMPLOYEE PROCEDURES**

In some instances, students and/or employees may for some reason not show up for classes, or work. While this is generally not a serious issue, sometimes events happen out of character or away from the "norm" for the individual. If you suspect a fellow student or employee has not been attending class, or work and they have not contacted anyone to make necessary arrangements, please contact your instructor/supervisor and the Safety and Security Committee as soon as possible. Unplanned events do happen, but if no one knows something is out of the ordinary, necessary measures may not be taken in a timely manner. Always have a plan for emergency contact instructions, provide information to the registrar upon course registration or to Human Resources upon being hired.

## **IDENTITY THEFT PREVENTION**

### ***At Home:***

Start by adopting a "need to know" approach to your personal data. Your credit card company may need to know your mother's maiden name, so that it can verify your identity when you call to inquire about your account. Your financial institution should have your pertinent information; therefore, it is unadvisable to share personal data over the phone. Also, the more information that you have printed on your personal bank checks -- such as your Social Security number or home telephone number -- the more personal data you are routinely handing out to people who may not need that information.

If someone you don't know calls you on the telephone and offers you the chance to receive a "major" credit card, a prize, or other valuable item, but asks you for personal data -- such as your Social Security Number, credit card number or expiration date, or

mother's maiden name — ask them to send you a written application form.

Review the application carefully when you receive it and make sure it's going to a company or financial institution that's well-known and reputable. The Better Business Bureau can give you information about businesses that have been the subject of complaints.

***Travel:***

If you're traveling, have your mail held at your local post office, or ask someone you know well and trust another family member, a friend, or a neighbor to collect and hold your mail while you're away. If you have a telephone conversation while you are traveling, and need to pass along personal financial information don't do it at an open telephone booth where someone can listen to what you are saying.

**If your identity is stolen**

Protecting yourself from identity theft is no sure thing. But there is plenty you can do if you realize your identity has been taken:

- Contact the local fraud department of each of three major credit bureaus. Tell them that you're an identity theft victim. Request that a "fraud alert" be placed in your file, along with a victim's statement asking that creditors call you before opening any new accounts or changing your existing accounts.
  - **Equifax to report fraud: 1-800-525-6285**
  - **Experian to report fraud: 1-800-397-3742**
  - **TransUnion to report fraud: 1-800-680-7289**
- Contact the creditors for any accounts that have been tampered with or opened fraudulently. Speak with someone in the security/fraud department of each creditor, and follow-up with a letter.

**EMERGENCY PREPAREDNESS INFORMATION**

**Emergency Response and Evacuation Policy**

Ivy Tech Community College - Southern Indiana will initiate, without delay and taking into account the safety of the College community, the usage of the Ivy Tech Alert emergency notification system in the event of a significant emergency or dangerous situation on campus that involves an immediate threat to the health or safety of students, staff, faculty and visitors.

The notification will go out to everyone on the Ivy Tech Alert system upon confirmation of the significant emergency or dangerous situation unless issuing the a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. The content of the message will vary depending on the situation. The officials who can initiate an Ivy Tech Alert message include the Chancellor, Executive Leadership Team members, and the Safety and Security Leadership Team.

Regularly scheduled drills, exercises, and appropriate follow-through activities, designed for assessment will be conducted each semester. Emergency Evacuation Plans are posted in every building/hallway on campus. Emergency Situation Response Guidelines are posted in every classroom area on each campus and provided to all full-time employees and faculty members.

The evacuation plan provides a floor plan of each campus location, identifying the locations of all exits, fire alarm pull stations and fire extinguishers. The evacuation plans list instructions for response to a fire and tornados.

### **Emergency Communications**

After an emergency such as a tornado, local phone lines may have reduced capacity. Do not make calls immediately after an emergency unless it is a life safety situation – leave the lines available for emergency services. One way to keep in touch with your relatives after an emergency is to call an out-of-area phone contact. Ask the out-of-area contact to call all of your other relatives and friends for you to tell them that you are ok. Emergency notification on campus will be in the form of emergency text message, email, public address system, word of mouth, or any combination of the mentioned actions.

### **Building Evacuations**

#### **Before an Evacuation:**

- Familiarize yourself with evacuation procedures for the building; locate the nearest exit and fire extinguishers.
- Find the Emergency Assembly Point (EAP) for your building.

#### **During an Evacuation:**

- Evacuate when you hear the sound of an alarm in a campus building. (Drills are no exception.)
- Exit the building quickly and safely, closing the exit door behind you.
- Wear shoes.
- Never use elevators – always use the stairs.
- Help others to evacuate – knock on doors, check bathrooms as you leave the building. Help those with a physical disability evacuate the building if they need help.

- An alarm may be part of a crime in progress – be alert for suspicious persons or activity.
- If the alarm in a building has been set off by accident, call 9-911/9-1-1 immediately and explain the situation.
- Report any vandalism or tampering with the alarm immediately.

## ANNUAL CAMPUS FIRE REPORTING

Ivy Tech Community College Central Indiana **does not** own, operate or rent student housing on any of its campuses. However, we have included fire precaution information and statistical information in our Annual Security Report. Ivy Tech Community College - Southern Indiana does conduct drills each semester including FIRE and TORNADO drills. Everyone should always alert and aware of their surroundings at all times. Drills help to keep building occupants aware of their surroundings, as well as, up to date on proper procedures.

### Fire Safety Precautions

What to Do in Case of Fire;

If you discover a fire in a campus building:

Immediately pull the nearest fire alarm as you exit the building. When evacuating the building, remember to feel doors before opening them to be sure that there is no fire danger on the other side. If you must enter a smoke-filled room or hallway, stay low, keeping one hand on the wall to avoid disorientation and crawl to the nearest exit, keeping your head near the floor. Once you are safely away from danger, call the emergency number for your campus to report the fire. If you are off campus, dial 911. Leave the building at once, but stand-by to direct emergency teams to the location of the fire.

### Fire Response Dos and Don'ts

- DO treat every alarm as an emergency. If an alarm sounds, exit the building immediately. DON'T assume that a fire alarm is a drill or test. All building alarm systems are tested as required by law, but these tests are announced in advance.
- DO remain in your room if you cannot get out of the building because of heat or smoke.
- Call Public Safety right away. Keep the door closed and await assistance from the Fire Department.
- If smoke is entering around the door, stuff the crack under the door with clothing or other material to block the smoke from entering.

### Building Fire Equipment/Doorways

- Buildings are equipped with a variety of features that are designed to detect, stop and/or suppress the spread of a fire.
- A door can be the first line of defense against the spread of smoke or fire from one area to another. Some doors, such as fire doors in corridors or stairwells are designed to stand up to fire longer than those of an individual room. It is important that these doors are **CLOSED** for them to work.

- Additionally, if a door has a device that automatically closes the door, it should NOT be propped open.
- Sprinklers are 98% effective in preventing the spread of fire when operating properly. **DO NOT** obstruct the sprinkler heads with stacked boxes or other equipment or objects.
- Smoke detectors cannot do their job if they are disabled or covered by the occupant, which is a violation of University Policy.
- Almost  $\frac{3}{4}$  of all fires that are caused by smoking material are the result of a cigarette being abandoned or disposed of carelessly.
- **Smoking is NOT PERMITTED in any Ivy Tech building.**
