

Radiation Therapy

Information Sessions 2021-2022

All Spring 2022 Live Radiation Therapy Information Sessions have been canceled. As an alternative, you can listen to a recorded Zoom [here](#). Attendance to a live session in Fall 2021 or watching the Zoom recording will both satisfy the application requirement for those applying to the program in Spring 2022.

Please note: attendance was recorded for the live sessions, and faculty can see whether you've listed to the Zoom recording and for how long. You must listen to the entire recording to meet application requirements. If you didn't either attend a live Zoom or watch the recording in its entirety, you will not be eligible to apply and will not be considered for admission to the Radiation Therapy program. If you have additional questions after listing to the information session, please contact Erin Sanders, Program Chair for Radiation Therapy, at esanders41@ivytech.edu.
