Agriculture is one of the largest sectors of Indiana’s economy, with a $20 billion annual impact. From farmers to researchers to technicians and sale people, agriculture spans many and varied fields. And, as agriculture becomes more productive and high-tech, the need for trained college graduates in these careers is increasing.

Agriculture at Ivy Tech is dynamic and exciting. We are constantly updating our curriculum and course offerings to meet the rapidly changing needs of agriculture employers. The Ivy Tech Agriculture program has instructors who are experts in their fields with the educational backgrounds and real-world experience to prepare their students for success. Whether you complete the Associate of Science or Associate of Applied Science degree, you’ll have the tools you need to get ahead in the field of agriculture.
