Do you want a career on the cutting edge? The Biotechnology program will prepare you to work in a variety of life science laboratory settings. Emphasis is placed on learning applications such as analysis of biological molecules, use of bioreactors and fermentors, recombinant DNA technology, generation of cell cultures and safe operation of laboratory equipment.

**Degrees & Certificates Offered (Wabash Valley Region):**
- Associate of Applied Science (AAS)
- Associate of Science (AS)

**Typical Careers:**
- Clinical Technician
- Laboratory Technician
- Production Line Operator
- Quality Control Technician

**POINTS OF PRIDE**
- Two biotechnology dedicated laboratories that are equipped with laboratory instruments and supplies that support teaching and provide students with hands-on experience.
- Students obtain academic and laboratory experience on-campus that applies directly to the real-world work environment during their internship.
- Program prepares students for a variety of career possibilities from industry to research.
- We have five generations of plants that we have cloned from one original plant!
- Students participates in labs that show the importance of biotechnology in food and industry, such as making cheese and biodiesel fuel!
