

BIOTECHNOLOGY

Do you want a career on the cutting edge? The Biotechnology program will prepare you to work in a variety of life science laboratory settings. Emphasis is placed on learning applications such as analysis of biological molecules, use of bioreactors and fermentors, recombinant DNA technology, generation of cell cultures and safe operation of laboratory equipment.

Degrees & Certificates Offered (Wabash Valley Region):

Associate of Applied Science (AAS)

Associate of Science (AS)

Typical Careers:

Field Technician

Laboratory Technician

Genetic Research Technician

Forensics Investigating Technician

Environmental Monitoring Technician

Quality Control Technician

POINTS OF PRIDE

- ▶ Program combines science, computers, and technology in a lab environment
- ▶ Program is hands-on from day one with up-to-date laboratory activities
- ▶ Students gain on the job experience through internships
- ▶ Start your career immediately after graduation or transfer to a four-year university.
