I. PURPOSE

The purpose of the COVID-19: Use of Face Coverings policy is to provide guidance for the required and voluntary use of cloth face coverings by students, faculty, staff, and visitors of Ivy Tech Community College (Ivy Tech). In response to the SARS-CoV-2/COVID-19 pandemic, the Centers for Disease Control and Prevention (CDC) has issued guidance recommending everyone use cloth face coverings when in public. The use of cloth face coverings prevents the spread of droplets that could contain the SARC-CoV-2 virus and is not intended to provide respiratory protection as defined by the Occupational Safety and Health Administration (OSHA).

II. POLICY

All individuals on Ivy Tech property or participating in an official Ivy Tech event shall wear a face covering so designed as to contain potentially contaminated droplets. Individuals working in an individual workspace or office and those participating in outdoor events that allow for a minimum of 6 feet of social distance are recommended, but not required, to utilize a face covering. Ivy Tech will provide two (2) washable and reusable cloth masks to each employee and one (1) washable and reusable cloth mask to each registered student. Those individuals required to wear a face covering are permitted to utilize a cloth mask provided by the College, a cloth mask made in accordance with [CDC recommendations](#), or another reasonable substitute face covering that allows for droplet capture. The use of face coverings is recommended even in instances where social distancing of at least 6 feet is possible. The use of face coverings in the practice of an individual's religion or as otherwise medically necessary remains welcome at Ivy Tech and is not changed or impacted by this policy.
