Congratulations!

You are now an Ivy Tech student.

Because you’re simultaneously earning college and high school credit, you are now an Ivy Tech student! Dual credit classes will give you a jump start on higher education. After graduating high school, you can make your dual credits work even harder by earning an associate degree or certificate from Ivy Tech. With more than 40 locations across Indiana and opportunities to get involved on campus or travel abroad, Ivy Tech provides a quality education experience. Whether your post-high school goals include continuing to earn a bachelor’s degree, or starting your career right away, Ivy Tech is here to help.

Your credits may apply toward Start as a Sophomore, also known as the Statewide Transfer General Education Core (STGEC) where you earn a 30-credit hour certificate that transfers to all public four-year colleges in Indiana. As you continue on your high school career, keep Ivy Tech in mind for your post-graduation plans. You’re already an Ivy Tech student, and earning an associate degree or other credential from Ivy Tech can be a faster, more affordable way to reach your educational goals.

Steps you need to take.

Now that you’ve applied to simultaneously earn college credit and high school credit, at no cost to your family, you need to make sure your hard work pays off. To earn these credits, you must pass your class with a grade of C or higher, and work with your dual credit coordinator to ensure those credits show up on your transcript. If it is required for the course in which you ultimately enroll, your next step will be working with your dual credit teacher or high school guidance counselor to provide Ivy Tech Community College with your standardized test scores (SAT, ACT, or PSAT), high school transcripts (if you have completed four high school semesters), or ACCUPLACER assessment scores.

You will need your Ivy Tech Community College student identification card, included in this brochure, to continue. This ID will stay with you throughout your Ivy Tech career.

Best of luck in your dual credit class!
