

Talk to your advisor about your GRADUATION TIMELINE today!

Consider your semester load (chart based on associate-level degrees)

Other factors to consider

- Do you need to take any College Prep Courses?
- Do you have any previous college credits that will apply to your degree?
- Do you have any Prior Learning experience that might count as college credit?
- Are you applying to a Limited Enrollment Program?
- Are you able to take classes in the Summer?
- Will there be semesters that you might need to cut back on credit hours?
- Will there be semesters that you might be able to pick up more credit hours?
- Can you "stack" your degree so that you can earn a CT or TC (or both!) along the way?

When do you plan to complete your certificate or degree?

- How many hours are required for your goal?
- How many hours toward your degree have you already earned?
- If you are applying to a Limited Enrollment plan, when do you plan to apply?
- When will you complete your degree goal? _____
