Policy for Guest Student Admission

Students who are currently admitted as students in good standing at another regionally accredited institution of higher education who desire to be admitted to Ivy Tech Community College for the limited purpose of taking courses for transfer to their home institution can be admitted using the guest student admissions process. Guest students are required to submit a Guest Student Application.

Guest students must be in good academic standing at their home institution as determined by the home institution’s policies. Academic standing will be verified on the Guest Student Application by either:

a) signature of the Dean or other designated official of their home institution; or

b) signature of an Ivy Tech Community College official after review of documentation verifying matriculation during one of the previous two terms at the student’s home institution.

Guest students shall be admitted for one semester at a time and must complete the Guest Student Application for each term of enrollment. They are not eligible for any financial aid program administered by Ivy Tech Community College while admitted as a guest student. The guest student may enroll in any course(s) for which they deem themselves eligible.

Students should make themselves aware of the prerequisites for each course.
