The Imaging Sciences Program offers degrees for radiology and ultrasound. The radiologic technologist prepares and positions patients for exams and operates x-ray equipment. The ultrasounographers use high frequency sound waves to produce dynamic images of organs, tissues or blood flow inside the body.

Imaging Science graduates can work in hospitals, physicians offices, clinics, federal and state health agencies and certain educational institutions. The Associate of Applied Science program includes courses in the following areas: technique, exposure, positioning, protection, physics, patient care and ethics. Clinical practice and supplemental instruction are provided in accredited hospitals and clinics. Students graduating from the Imaging Sciences program participate in evaluations of competency in general and technical education. Upon completion of the ultrasound program requirements, graduates are registry eligible and must have worked for 12 months to take the National Registry Examination.

**Degrees & Certificates Offered (Wabash Valley Region):**
- Associate of Applied Science (AAS) - Diagnostic Medical Sonography/General
- Associate of Applied Science (AAS) - Diagnostic Medical Sonography/Vascular
- Associate of Applied Science (AAS) - Radiologic Technology

**Typical Careers:**
- Radiologic Technologist
- Diagnostic Medical Sonographer
- CAT Scan
- Cardiac Catheterization

**POINTS OF PRIDE**
- The program uses many resources to enhance the educational experience of the students in addition to the traditional classroom, lab and clinical practices.
- The Cross Sectional Anatomy class is supplemented with the use of the Anatomage Table (one of only a few in the nation) at the Rural Health Innovation Collaborative (RHIC) Simulation Center.
- Through a partnership with the IU School of Medicine - Rural Health program, students are able to experience seeing and handling human anatomy in a cadaver lab with medical students.
- Radiology program one energized and one non-energized labs to allow for a variation of clinical experiences.
- Graduates have a 97% first time pass rate on national registry boards!
- Programs are hybrid, with blended learning online and on-campus to fully integrate the material.
