

CUSTOMIZABLE WORKFORCE CREDENTIAL

Your company can only perform at its best when it has employees with the right knowledge and skills. The flexible Workforce Alignment degree program allows you to make education and professional development training investments, while servicing your most important asset – your employees.

Combine innovative learning methods, real world experiences and industry partnerships, in order to create a program that suites your business model.

Build technology-driven careers by creating industry-specific programs that utilize blended learning and hands-on projects with a focus on the latest state-of-the-art technology.

Pathways typically include nationally recognized certifications, contextualized general education and industry validated competencies with multidisciplinary electives to customize the workforce training program.

Ivy Tech Community College is committed to providing you with the highest return on your investment by offering degree outcomes that are:

- Industry-recognized national certifications
- Customized training to meet your workforce needs – (Certification crosswalks, prior learning, and OJT)
- Proven results from satisfied clients ranging from small business to global Fortune 500 companies
- High-quality instruction from faculty with world-class experience
- Flexible solutions to meet your needs

At Ivy Tech Community College, we are here to help you strengthen your workforce and develop the talent within your company. For information on how we can help you meet your workforce needs please contact:
