

Ivy Tech Community College Internship Agency Survey—Fall, 2016

Internship site surveys were administered electronically by email to internship site supervisors. Fall 2016 was the first semester we administered these surveys. Completion rates were low, but regional Human Service Chairs will stress the importance of completing these surveys when they conduct internship site visits and at departmental advisory committee meetings. From the data gathered we learned that internship agencies are quite pleased with the quality of students we send them, and the majority plan to continue to host interns in the future.

Students have a sense of professional ethics and a code of conduct.
