

The following graph depicts the overall enrollment of students divided into concentrations. This follows enrollment through Fall of 2014 to Fall of 2017

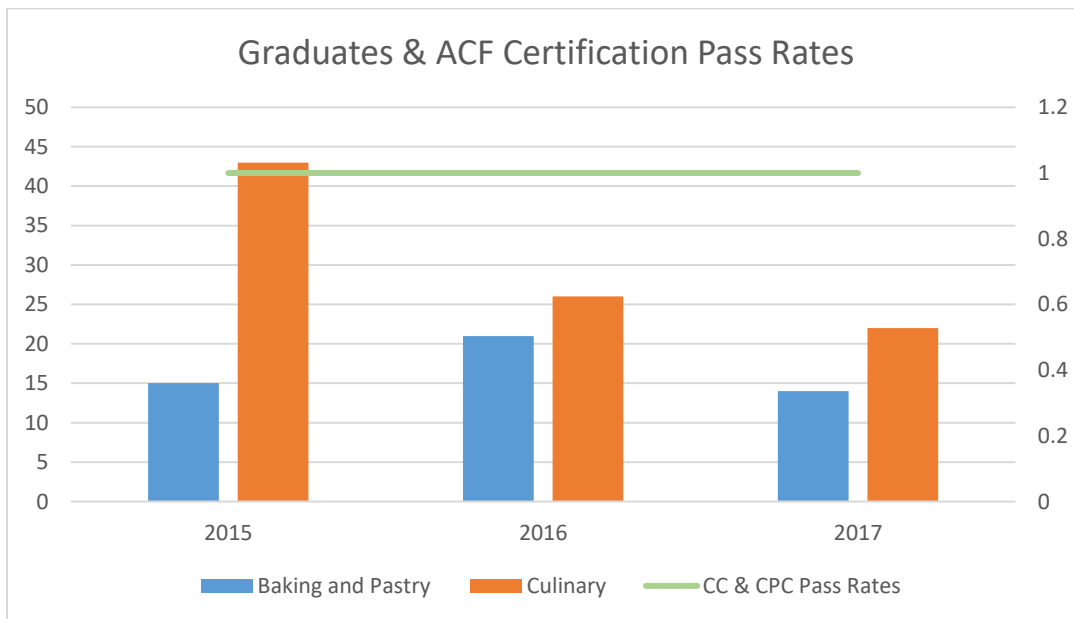

This is a depiction of enrollment trends from Fall 2014-Spring 2018. This is an overall number of all concentrations within the Hospitality Administration program.

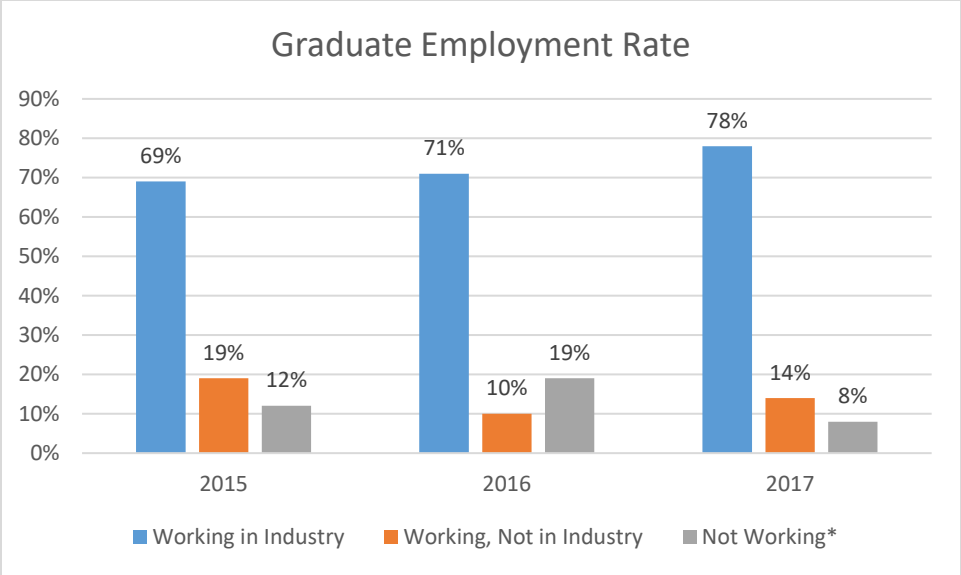

\*\* Lower Enrollment numbers are on par with community college as a whole

100% of our students graduating the program also tested for ACF Certification. 100% of our students passed their certification test upon completion of the program. The graph depicts the number of graduates per concentration and the pass rates for both the Certified Culinarian (CC) and Certified Pastry Culinarian (CPC).

\*Numbers shown as "not working" are due to a number of factors. A large portion of this is due to continuing education for a Bachelor's degree. A portion of the percentage is also due to other reason such as medical reasons. There is an abundance of jobs in the industry and most of the "not working" range is by choice.
