PLAN - TYPICAL STANDARD SEATING

SCALE: $\frac{1}{8}'' = 1'-0''$

- Drawing shows typical Standard configuration.
- Seating platforms are available in 3'x4', 3'x6', and 3' x 8' sections. Available heights are in 6" increments.
- Platforming subject to available inventory.
- In determining amount of seating, the number of cast and crew must be included so as not to exceed space capacity
