

MANUFACTURING PRODUCTION AND OPERATIONS

The Manufacturing Production and Operations (MPRO) program is a complete online degree designed to develop the skills and knowledge of modern manufacturing processes and technologies needed to be successful in today's advanced manufacturing organizations. MPRO is ideal for a wide variety of career advancement goals such as:

- Upgrading your skills in order to advance in the manufacturing field where an accredited degree is needed for advancement within your company
- Becoming a production technician in manufacturing
- Strengthening and expanding your knowledge of manufacturing to support your role as an accountant, HR professional, inventory manager, etc. in a manufacturing organization.

The Manufacturing Production and Operations program prepares students to become skilled production operators who can function as fully proficient manufacturing system employees in manufacturing environments. Manufacturing companies require skilled machine operators that can use gauging, inspection and operations techniques to produce high quality products.

ONLINE DEGREES AND CERTIFICATES:

Technical Certificate
Associate of Applied Science

Typical Careers:

Machine Operator	Parts Inspector
Assembler	Work Cell Operator
