As research continues to change the face of modern medicine, more sophisticated tests allow for more accurate and rapid diagnoses. Medical Laboratory Technology (MLT) has become a technologically complex field requiring specific knowledge and skills. The MLT program at Ivy Tech will train you to proficiently perform the duties required in a Clinical Laboratory. This two-year Associate in Applied Science degree program will prepare you theoretically and technically for the procedures you will be performing.

The Medical Laboratory Technology program is a selective admission program. When you apply to the College, you will be accepted into Healthcare Support with a concentration in Medical Laboratory Technology while you complete the prerequisite requirements. The Medical Laboratory Technology program accepts a limited number of students each year and there is a separate application process.

**Degrees & Certificates Offered (Wabash Valley Region):**
Associate of Applied Science (AAS)

**Typical Careers:**
Clinical Laboratory Technician
Medical Laboratory Technician

**POINTS OF PRIDE**
- Fully-equipped laboratory to support teaching and enable students to gain valuable hands-on experience with up-to-date equipment used in local hospitals.
- Faculty work to instruct students on how to aid with the diagnosis of patients and save lives, by enhancing knowledge of themselves and their world.
- Accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS).
- Opportunities are available for students to have experiences outside the traditional classroom setting with clinicals, public health labs, research labs, diagnostic companies and industrial labs.
- Get involved with the MLT Club!

Certificate programs in this program are considered by the U.S. Department of Education to be "Gainful Employment" programs. Information about program length, cost, loan debt, graduates, and related occupations can be found at http://www.IvyTech.edu/academics/gainful-employment.html.
