

10-Hour General Industry

OSHA 10 Hour for General Industry Certification

- Designed for safety personnel from any type of industry who are responsible for on-the-job safety and health work practices, complying with OSHA regulations
 - General Industry: manufacturing, distribution, retail, research and development, and many more.
 - General industry means any workplace other than construction, maritime, or disaster sites.
- In fact, 10-hour training is rather broad in scope and intended for employees who are new to the workforce.
- Every participant will receive an OSHA 10-hour General Industry Course Completion Card upon successful completion of the course.
