

PSYCHOLOGY

Ivy Tech Community College's Psychology Program and Associate of Science degree offers an excellent entry point for students interested in pursuing advanced degrees in psychology and its many areas of specialization. Our Associate of Science in Psychology is a "Transfer as a Junior" degree that was established between Ivy Tech and all public, four-year universities in the state of Indiana. The purpose of this degree is to complete your first two years of a four-year degree in psychology, then transfer to any public university in Indiana, and earn your Bachelor's degree with an additional two years of full-time study at the university. If you are interested in studying psychology, then take the first step on your path of educational success with us here at Ivy Tech Community College.

Degrees & Certificates Offered (Evansville Campus):

Associate of Science (AS) in Psychology

POINTS OF PRIDE

- ▶ We have dedicated and knowledgeable faculty with many different areas of specialization.
- ▶ Students can benefit from our Academic Support Center, which provides support and assistance through the Math Lab, Writing Center, and our subject-based tutoring services.
- ▶ With many excellent introductory courses, including such courses as PSYC 201 Lifespan Development, PSYC 205 Abnormal Psychology, and PSYC 211 Research Methods, our program provides a solid foundation for future study in psychology.
- ▶ Students can earn Indiana's Statewide Transfer General Education Core, 10 general education courses (30 credit hours) that transfer as a block to any other state institution of higher education.
- ▶ Students can develop mentoring and leadership skills by becoming a subject-based tutor, as well as participate in service learning projects to engage and support our community.
