The Imaging Sciences Program offers degrees for radiology and ultrasound. The radiologic technologist prepares and positions patients for exams and operates x-ray equipment.

Imaging Science graduates can work in hospitals, physicians offices, clinics, federal and state health agencies and certain educational institutions. The Associate of Applied Science program includes courses in the following areas: technique, exposure, positioning, protection, physics, patient care and ethics. Clinical practice and supplemental instruction are provided in accredited hospitals and clinics. Students graduating from the Imaging Sciences program participate in evaluations of competency in general and technical education. Upon completion of the ultrasound program requirements, graduates are registry eligible and must have worked for 12 months to take the National Registry Examination.

Degrees & Certificates Offered (Wabash Valley Region):
Associate of Applied Science (AAS) - Radiologic Technology

Typical Careers:
Radiologic Technologist
CAT Scan
