

Retirement Symposium

Ivy Tech offers a program aimed at helping you gather important information in planning for your future. This program provides you an opportunity to speak with subject matter experts regarding your retirement. Presenters include representatives from Frank A. Leyes & Associates, Social Security Administration, PERF, Transamerica Retirement Solutions, and Ivy Tech Benefits Department.

Retirement Symposiums are hosted by each region every two years. Invitations are sent out to employees age 52 and higher. The event is held later in the day to provide the option for you to bring a guest.

By attending a retirement symposium we hope you walk away with:

- Individual contacts to help you along the way
- Things to think about as you approach retirement
- Guidance in planning for retirement
- Benefit options available to retirees
