

Key Elements of ArcelorMittal's *Steelworker for the Future*[®] program offered to eligible students at Ivy Tech Community College:

- *Steelworker for the Future*[®] (SWFTF) is an internship program offered by ArcelorMittal and available to eligible students of partner colleges. Ivy Tech is the leading partner college for ArcelorMittal in NW Indiana.
- Interested students would first enroll at Ivy Tech in the 2-year (60 credits) Associates of Applied Science (AAS) degree in Industrial Technology with a Technical Certificate (TC) in Industrial Electrical Technology. The curriculum for both programs is attached. *Please note that only students enrolled in this electrical pathway for the AAS are eligible for SWFTF.*
- Students work first toward completing their Industrial Electrical TC. Courses include: basic electricity, advanced manufacturing technology, motors and motor controls, programmable logic controllers, industrial wiring, and mechatronics of electrical and robotic systems.
- Students are eligible for consideration for a SWFTF internship after completing the first 13 core credit hours of their TC with a minimum 2.8 GPA. Students remain eligible for consideration for 6 months after graduation from Ivy Tech. A Student Information Sheet (attached) is completed and submitted to the Department Chair, Industrial Technology.
- Upon receiving the Student Information Sheet, ArcelorMittal will drug test the candidate before allowing to entry to the program. The student will be further interviewed, tested, and assessed by ArcelorMittal. If the student meets ArcelorMittal's criteria, the student is offered an 8-week, 40 hr/week paid internship at the Burns Harbor, IN ArcelorMittal plant location. Upon completion of a first internship, a second 8-week internship may be offered.
- Internship dates coincide with Ivy Tech's academic schedule. Internships occur during the day shift only and many students continue to take evening classes toward completing their degree while getting paid to work at ArcelorMittal as an intern.
- The student may be offered full-time employment by ArcelorMittal after their internship and upon completing their AAS degree pending there are open positions and all other hiring qualifications can be met by the graduate.

For additional information about Ivy Tech, the Industrial Technology Program, Courses, Fees and Admissions please visit: <https://www.ivytech.edu/industrial-technology/>

Additional information about *Steelworker for the Future*[®] can be found at: <http://usa.arcelormittal.com/people-and-careers/steelworker-for-the-future/program-details>

Please note that there are no guarantees of acceptance to the internship program or for employment after graduation.

Bloomington - Columbus - Connersville - Evansville - Fort Wayne - Gary -
 Indianapolis - Kokomo - Lafayette - Lawrenceburg - Logansport - Madison -
 Muncie - Richmond - Sellersburg - South Bend - Terre Haute - Valparaiso -
 Warsaw

The following suggested sequence includes all course requirements for this degree. You must consult with an academic advisor to determine which electives best meet your career goals.

Semester 1										
S	ADMF 101	Key Principles of Advanced Manufacturing	3							
T	ADMF 102	Technology in Advanced Manufacturing	3							
T	ADMF 122	Automation - Mechatronics Electrical and Robotic Systems	3							
S	INDT 113	Basic Electricity	3							
S	IVYT 113	Student Success in Technology	1							
			Semester Total: 13							
Semester 2										
S	INDT 103	Motors and Motor Controls	3							
S	INDT 104	Fluid Power Basics	3							
T	INDT 125	Industrial Wiring Principles	3							
T	INDT 204	Electrical Circuits	3							
	MATH 122	Applied Technical Mathematics	3							
			Semester Total: 15							
Semester 3										
	XXX XXX	Statewide Elective OR COMM 104								
	OR		3							
	COMM 104	Workplace Communication								
	INDT 205	Programmable Controllers I	3							
			Semester Total: 6							
			TOTAL HOURS: 34

T - 2nd 8-weeks										

Steelworker for the Future®

Student Information Form

Student Information: (Please type or print clearly)

Last Name: _____ First Name: _____ MI: _____

Street Address: _____ Apt/Suite: _____

City: _____ State: _____ Zip: _____ Phone: _____

E-mail: _____

Partner College: _____ Specific Program: _____

Concentration (circle one): Electrical / Mechanical | Program Status (circle one): Full Time / Part Time | Currently Enrolled (circle one): Yes / No

13-Core Credits GPA: _____ out of _____ Expected Graduation (Month/Year): _____ (circle one): Associate / Bachelor

Have you previously applied to work for ArcelorMittal? Yes / No | When/where? _____

Have you previously applied to intern for ArcelorMittal? Yes / No | When/where? _____

Have you taken the ArcelorMittal Craft Entrance Exam (Ramsay)? Yes / No | When/where/score? _____

Are you related to a current/retired ArcelorMittal employee? (circle one): Yes / No | Name _____

Relationship: _____ Location: _____ (circle one): Represented / Salaried

How did you hear about Steelworker for the Future®? _____

By signing below, I understand and agree to the following to enroll in the Steelworker for the Future® Program:

The information above is correct. I am enrolled in a Steelworker for the Future® approved program at a Partner College pursuing an Associate Degree. I have a minimum GPA of 2.8/4.0 in the first semester core classes (13 credits minimum) as determined jointly by the partner college and ArcelorMittal. I will be required to take and pass a drug screening. I will provide, upon request, most recent transcripts to ArcelorMittal. I understand that by participating in the program, I am not guaranteed an internship, part-time, temporary, or full-time employment with ArcelorMittal.

I further understand and agree that in order to participate in an Internship:

I must complete an application and pass all of the qualifying steps required by ArcelorMittal (e.g. a PAN test, a Work Assessment, Interviews, a drug screening, a background check, and a post-offer, pre-employment medical exam). All qualifying tests will be paid for by ArcelorMittal. Time and travel to participate in these tests will be on my time and not reimbursed by ArcelorMittal. Failure of any tests will require a minimum of one (1) year wait time to re-apply, at which time all qualifying steps will require passing scores. I may be asked to submit a resume, transcripts, and a faculty recommendation from a core class instructor upon request by ArcelorMittal. No individual may participate in more than two internships; participation in a second internship requires completion of all qualifying steps above, plus a minimum of 36 program credit hours. I further understand that information regarding my application process or internship may be shared with the partner college at any time during or after the application process or internship. This may include position descriptions, evaluations, payroll information (e.g. hours per week, hourly wage rates, monthly payroll summary and associated timesheets, etc.), qualifying steps status and data, terminations, and other information relevant to the internships and/or application for the internships.
