Meets on Mondays and Tuesday nights

Meets on Wed nights only

Meets on Fridays only

Meets on Saturdays only

Minimum Class size of 3 instructors or the course may be cancelled

FT = Fast Track

Fast is a 4 hour hands on exam and orientation. Your current certification counts as your online exam.

CCEIT or CCNA Fast Track can be done at the same time as the CCNA RS III or IV course final exams

CCEIT Fast Track requires a current CCEIT certification and can certify you to instruct CCNA R&S Courses I & II

CCNA R&S Fast Track requires a current CCNA R&S certification and can certify you to instruct CCNA R&S Courses I-IV

IT Essentials Fast Track requires a current CompTIA A+ certification

Full Course

Orientations are a total of 8 hours taught in one day or two evenings.

One hour webinar will be held each week in between the orientation and exams to check your progress and ask questions.

Final exams can take up to 8 hours. Four hours for the online exam and four hours for the hands-on practical exam.

All classes may be attended virtually via GoToMeeting. Arrangements must be made in advance with the Instructor Trainer.

Virtual exams require a proctor.

Fast Track exams can only be attempted once. If you fail the Fast Track exam you must take the full course.

Full course exams can be taken up to 3 times, one month apart if you fail an exam before you have to retake the full course.

Instructor Trainers will provide support on course questions for up to one year from the date of initial training.

Additional Academy support is provided by your local Cisco Academy Contact and then through your Academic Support Center.
