NORTHWEST REGION

What you need to know about

PARKING AT IVY TECH

0000

EXPIRES JULY 31

On-campus parking for employees and students at Ivy Tech Northwest (East Chicago, Gary, Michigan City, Valparaiso) campuses and sites

To obtain a parking pass, please visit the Bursar Office. It is recommended that tags are obtained July 1. Current tags expire July 31.

To provide a more secure campus environment, all students, faculty and staff are required to obtain and display an Ivy Tech parking hang tag in their vehicle if they park in lots on the Northwest region campuses. Student parking is first come, first served.

Frequently Asked Questions

Am I required to obtain a parking hang tag? No. You may park off-campus without an Ivy Tech parking hang tag. However, if you choose to park on campus, you are required to obtain and display a parking hang tag.

Visitor parking is available, but it is not intended for regional students or employees. Vehicles belonging to students or employees parked in visitor parking may be towed.

How do I obtain my parking hang tag? Parking tags may be obtained at the Bursar Office.

Does obtaining a parking hang tag guarantee me a parking space on campus? Although every effort will be made to ensure that only vehicles with current hang tags are utilizing campus parking spaces, obtaining a parking hang tag does not guarantee the availability of a parking space.

What College sites are included in the parking hang tag requirement? Campuses and sites in the Northwest region and other sites the region may purchase or lease in the future.

Owned and leased sites do not include sites where outreach classes may be held, such as high schools, career centers, and WorkOne sites.

I teach/take classes at more than one campus in the region. How many hang tags do I need to obtain? Only one hang tag needs to be obtained. You may obtain it at any of Bursar Offices in the Northwest region.

I teach/take Ivy Tech classes only at an outreach site (such as a WorkOne site, career center, or high school). Do I need a parking hang tag to park in those lots? No, not at this time. However, if you frequently visit one of the regional campuses or College-owned or leased facilities for other business and want to park on-campus, you will need to obtain and display a parking hang tag.

My question is not listed here. Where can I find more information? An overview of parking can be found at www.ivytech.edu/parking. Please direct any additional questions to:
