

MENTORING INFORMATION

In the Youth CareerConnect/ Integrated Technology Education Program (YCC/ITEP), high school students receive dual credits through Ivy Tech Community College, job skills, personal development opportunities, leadership skills in advanced manufacturing/manufacturing technology. YCC/ITEP mentors provide professional and personal support to their mentees as they go through the program. Mentors are a key part of the YCC/ITEP community, supporting the learning, development, and exploration of the students.

A mentor is an individual who wants to have a positive impact on a young adult's life. He or she is a trusted person who is caring and provides positive solutions and support. A mentor provides access to people, places, and things outside the student's daily routine and environment. As a mentor you will use the career plan, a written statement of the goals of the student, as an ongoing touch point for your mentoring relationship.

Mentor Eligibility Requirements

- Must be over 21 years of age
- Must complete an application
- Attend a face-to-face interview session
- Pass criminal record and child abuse registry checks
- Satisfactory employment and personal reference checks

If you are interested in becoming a mentor and would like further information, please contact Jim Mullins, Mentoring Program Coordinator, Ivy Tech Community College, Youth CareerConnect Grant, Integrated Technology Education Program (ITEP) at Jmullins86@ivytech.edu or 765-252-5542.
