

Designed by the Public Art & Tour

October 2, 2025 | 2:00 p.m.

345 South High Street | Muncie, IN 47305

Join us for the ribbon cutting of *Designed by the Public*, a striking sculpture by Tatiana Bilbao, now installed on the east side pavilion facing High Street. Originally created for Exhibit Columbus—a program of the Landmark Columbus Foundation that celebrates world-renowned artists and architects—this remarkable piece invites our community to explore the intersection of art, architecture, and design.

Following the ribbon cutting, enjoy guided tours of the John & Janice Fisher Building, featuring the artwork throughout our campus.

Come experience this exciting addition to our community and see how art transforms public spaces!
