

Crossing the Finish Line

Free Credentials for Qualifying Students

The [Crossing the Finish Line \(CTFL\)](#) program was developed through a collaboration with the Indiana Department of Education and the Indiana Commission for Higher Education to provide high school students with the coursework and credits needed to fulfill a post-secondary completion.

CTFL has returned for its fifth year, offering the final credits needed for juniors and seniors that are on track to complete a credential by graduation or the summer after. To see if your students may qualify for these limited funds, reach out to your [campus K-14 Director](#).
