

Certified Surgical Technician Apprenticeship

About the Program

Doctors and nurses are not the only ones in the operating room. This highly competitive program opens doors for students to become technical healthcare professionals. With extensive hands-on training in a real operating room, graduates of the Surgical Technology program are prepared to do everything from hold a beating heart in their hands to assisting surgeons in the delivery room. Our mission is to prepare entry-level Surgical Technologists who are competent in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains to enter the profession.

Career Options:

While surgical technology sounds like a very specific field, there are a variety of career options that are available to our graduates. Some positions that our graduates might have include:

- Certified Surgical Technologist
- CST Educator
- Instrument Room/Central Processing Manager
- Medical Industry Representative
- Tissue Procurement Manager
- Central Sterile Supply Specialist

FROM THE
CLASSROOM

TO THE
OPERATING
ROOM

Graduates must complete a total of 62 credit hours:

- 13 general education course credits
- 49 program-specific course credits
