IMPACT REPORT

IVY TECH
COMMUNITY COLLEGE

IVY TECH HAS BUILT A FOUNDATION AS THE REGION'S WORKFORCE ENGINE.

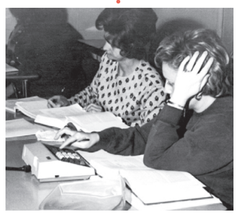

1963 — Indiana Vocational Technical College Established

1967 — Wabash Valley Regional Campus Chartered

1970 — Launched First Adult Learning Pathway

1975 — Added 3 New Workforce Training Programs Including Accounting Technology

1976 — First Cohort of Practical Nursing Graduates Entered the Workforce

1981 — Ivy Tech Greencastle Launched First Classes

1986 — New Technology Center Building Opened

1987 — Advanced Technology & Manufacturing Programs Launched

Plastics Technology Program Expanded

High School Partnerships Developed

1990 — Ivy Tech Greencastle Added Practical Nursing Program

1992 — Aviation Technology Center Opened at Hulman Regional Airport

1995 — College Renamed Ivy Tech State College

1996 — Aviation Technology Center Grew

1997 — ISU Transfer Pathways Approved

2005 — College Renamed Ivy Tech Community College of Indiana

Center for Information Technology Opened

Respiratory Care Program Began

Biotechnology Program Launched

2006 — Center for Workforce Development Opened

2009 — Ivy Tech Established Greencastle Learning Site

2010 — Paramedic Science Added Ambulance Simulator

2012 — Ivy Tech Acquired Doughmaker Building to Expand Classroom and Lab Space

2014 — New Information Technology Programs Added

2017 — Information Technology Expanded to Include Cybersecurity

2020 — Nursing Program Recognized Among Indiana's Top Programs

2024 — Ivy Tech Greencastle Nursing Simulation Center Opened

2025–26 STORIES

Summer Academies Introduce Students to High-Demand Careers

Following the success of the inaugural Healthcare Academy in 2025, Ivy Tech Terre Haute expanded its Summer Academy initiative in 2026 by launching a new Cyber Academy. Together, the academies provide local high school students with hands-on learning, college credit, career coaching, and direct exposure to high-demand careers in healthcare and information technology. The program is already demonstrating strong results with initial matriculation rates to Ivy Tech topping 84%.

South Putnam Student Receives Chancellor's Award Scholarship

South Putnam High School senior LauraJane Switzer was this year's recipient of the prestigious Chancellor's Award Scholarship. She began pursuing her associate degree in nursing in August 2026. The scholarship covers tuition, technology fees, and books for up to four semesters, allowing Switzer to pursue her nursing education without the burden of financial stress.

Cummins Engine Donation Boosts Hands-On Diesel Training

Ivy Tech Terre Haute received a generous donation of eight Cummins 3.3L four-cylinder diesel engines, a gift valued at more than $90,000. The engines provide essential hands-on training opportunities for students in Ivy Tech's diesel and automotive-related programs, allowing them to gain experience working with industry-standard equipment and technology.

Advanced PLC Academy Broadens Manufacturing Training

A $25,000 grant from the Duke Energy Foundation enabled Ivy Tech Terre Haute to launch the Advanced PLC Academy, expanding industrial automation and controls training to support the workforce needs of employers like ENTEK. As ENTEK grows its West Central Indiana operations, the academy provides students and incumbent workers with advanced skills in systems integration, diagnostics, industrial networking, and process optimization. This employer-driven training strengthens the region's talent pipeline and reinforces Ivy Tech's role as the workforce engine for Indiana.

Ivy Tech Terre Haute Delivers $162.9 Million Regional Economic Impact

A new Lightcast report highlighted Ivy Tech Terre Haute/Greencastle's impact on West Central Indiana, showing the college generated $162.9 million in added income and supported nearly 2,200 jobs during Fiscal Year 2024-2025. The report demonstrates the value of education and skills training for students, employers, taxpayers, and the regional economy.

Early Childhood Education Apprenticeship Expands Career Pathways

Ivy Tech Terre Haute partnered with Indiana State University's Jan McCarthy Early Childhood Education Center to provide apprenticeship opportunities for students pursuing careers in early childhood education. The program combines classroom instruction with paid, hands-on experience, allowing students to earn a Child Development Associate (CDA) credential while building a pathway toward an associate degree and addressing regional workforce needs.

NEXT STEP: BUILDING FOR THE FUTURE

Ivy Tech Terre Haute is requesting $84.5 million in state funding from the Indiana General Assembly during the 2027 legislative session to transform the campus into a modern, student-centered environment focused on student success, safety, and workforce needs. The proposed project includes a new state-of-the-art building, high-tech learning labs, and campus renovations designed to create more industry-like learning environments, improve efficiencies, and support continued enrollment growth.

This vision is aimed at four key goals:

1
GROW ENROLLMENT IN NEARLY ALL PROGRAMS

2
CREATE A WELCOMING, SAFE, STUDENT-CENTERED CAMPUS

3
CO-LOCATE HEALTH SCIENCES AND NURSING PROGRAMS

4
REDUCE CAMPUS FOOTPRINT AND IMPROVE EFFICIENCIES
