Appointments are required

The clinic provides learning experience for the students in the Dental Hygiene Program. The student's grade and completion of the program depend on ***you***! As such, ***we kindly ask that all appointments made be honored.*** Please contact the clinic **ASAP** if you are unable to make your appointment or need to reschedule.

About Us

The Ivy Tech Dental Hygiene Clinic serves both as an educational facility to support the education of dental hygienists and as a service to the community by providing reasonably priced option for quality preventive dental services.

The clinic is open throughout the year, but the hours will change each semester. Please contact the clinic at 574-390-6632 for exact times and to schedule an appointment.

About your appointment

Our dental hygiene students perform the services we provide under the supervision of *licensed* dental professionals. Since the nature of the clinic is an educational setting, your dental hygiene care will progress at a slower pace than that of a private dental office.

Patients can expect an appointment to last up to three hours, and you may need to return for additional appointments. Please be assured that our students and instructors are working diligently to provide top quality care.

In addition, we take a complete medical history so please bring a list of current medications with dosages. This history helps us to give you the safest possible care.
