Human Services

Audience: Registered students interested in a degree in Human Services

Subject: Learn more about a Mental Health Internship through DMHA.

Preheader: Space is limited!

Body:

As an Ivy Tech Community College student on track to earn an associate degree in Human Services, you can apply to participate in a Mental Health Internship Program. The Indiana Division of Mental Health and Addiction (DMHA) and the American Relief Plan (ARP) are working together to address Indiana's workforce shortage of qualified mental health workers.

The internship program is limited to 10 associate-level students, on a first come first serve basis, in order of application, per semester. The internship must be completed in a mental health setting. So act fast! To get started, complete the application linked below.
